Computational Sciences Research Center

SDSU San Diego State University

MOLE Users' Group Meeting

April 30, 2026 from 10:00 AM to 12:00 PM (U.S. Pacific Time)
The meeting is in person and online.
Bioscience Center Auditorium, San Diego State University,
to register fill out the online **MUG registration form**

The Computational Science Research Center (CSRC) at San Diego State University invites you to:

***The First MOLE Library Users' Group (MUG) meeting*,**
April 30, 2026 from 10 AM to 12:00 PM. U.S. Pacific Time.

The Mimetic Operators Library Enhanced (MOLE) international community brings together developers of partial differential equation (PDE) solvers, researchers of mimetic methods, software engineers, developers of high-end computational applications, and external library reviewers. Furthermore, the MOLE Open Source Ecosystem (OSE) organization hosts the sustainable development of the MOLE library; managing its integration with other HPC numerical libraries, its portability and interoperability to different computational platforms and programming languages, and supporting the development of high-end computational applications.

The goal of this meeting is to foster collaboration among all MOLE users and developers, share the latest MOLE updates with the broader community, deepen engagement, and gather feedback to guide future development directions for the MOLE OSE. The meeting will cover a brief introduction to MOLE, library updates, software engineering governing and onboarding documents, reports from MOLE's governing circles, address new community requests and feedback, present a report from external peer-reviewers, and present MOLE's strategic 2025-2026 plan.

MUG is a great opportunity for MOLE developers and users to provide feedback and get involved in the sustainable development of the MOLE Library. The meeting will be held in person at ***The Bioscience Center Auditorium (Gold Auditorium), at SDSU*, on April 30, 2026 from 10 AM to 12:00 PM U.S. PT, and also online via Zoom**. To register for the meeting in person or online, please fill out the MUG's Registration Form.
